

Mahdi Hussain

London | 07514737839 | mhussain18m@gmail.com | Portfolio: <https://mahdi-hussain-portfolio.netlify.app>

Skills: TypeScript, JavaScript (ES6+), Java, Python, React.js, Node.js, Express, Spring Boot, RESTful APIs, PostgreSQL, MySQL, Git, GitHub Actions, CI/CD workflows, ESLint, Bash, HTML5, CSS3, Object-Oriented Programming, Agile

EDUCATION

BSc Computer Science - First Class Honours (1:1, 78+%) | University of Leicester

July 2025

Notable Modules: Algorithms, Data Structures and Advanced Programming; Object Oriented Programming; Software Architecture and System Development; Databases and Domain Modelling; User Interface Design Evaluation, Internet and Cloud, Mobile and Web Development

PROJECTS

AI-Powered Bank Statement Analyser | <https://spend-bee.netlify.app>

- Developed a **full-stack AI-driven platform** with **React, TypeScript, and OpenAI**, automating transaction categorisation and generating actionable financial insights
- Designed production-ready **CI/CD workflows** with **GitHub Actions** to automate build validation and **ESLint** checks, deploying continuously to Netlify and Railway to enforce consistent release quality
- Leveraged AI assistants like **ChatGPT** and **Claude** to accelerate development and deliver the project within a short timeframe

Event Booking Platform | <https://eventqibla.netlify.app>

- Developed a full-featured event booking platform using **TypeScript** and **React**, enabling users to host, manage, and discover events seamlessly
- Achieved **sub-second** frontend rendering time by applying **lazy loading** and **memoization**, significantly improving user experience
- Optimised **RESTful API** handling with **Node.js** and **Express**, improving code maintainability and data flow
- Enhanced database query performance by implementing **PostgreSQL** with strategic indexing

IBM SkillsBuild Companion App

- Commissioned by **IBM** to develop a mock web application to incentivise students to engage with the IBM SkillsBuild Platform through gamification, successfully increasing user activity by **30%** in a mock trial
- Spearheaded the **Agile** development process as **Scrum Master** for a **team of 8**, managing weekly standups and sprint events for timely completion of project milestones
- Leveraged **Java** and **Spring MVC** to implement **RESTful** services, handling data management and business logic
- Configured a **relational database** with **MySQL** for data storage and role-based access, enabling detailed user management
- Utilised **GitLab** for documentation and **version control**, fostering collaboration and maintaining code integrity

Private Cloud Whiteboard

- Distributed a shared, interactive whiteboard application across multiple Microsoft **Azure App Service** nodes
- Achieved persistent, low-latency connections by integrating Azure Web PubSub for **WebSocket** communication and **Redis Cache** for state synchronisation and rapid data retrieval
- Applied **Docker** containers to simplify horizontal scaling, allowing quick instance deployment during peak demand

London Landmark Finder

- Developed a web application in **HTML, CSS, and JavaScript** that assists users in discovering landmarks across London
- Implemented **AJAX** for dynamic content updates, guaranteeing accurate database access without page reloads
- Secured user sessions with **JSON Web Tokens (JWT)**, enhancing authentication reliability and session management

Bookstore API

- Designed a **REST API** specification for a virtual bookstore in **YAML**, whilst adhering to **OpenAPI 3.0** standards
- Employed **Postman** Integration Testing to automate API requests and JSON bodies validation, safeguarding store services
- Built and deployed the backend using **Java Spring Boot**, integrating the specification into a functional API

WORK EXPERIENCE

Asda Superstore | Wallington | Store Colleague

Aug 2024 – Dec 2024

- Communicated clearly and effectively with colleagues across different departments to coordinate tasks for smooth operations
- Demonstrated strong **problem-solving** skills by anticipating checkout congestion during peak hours and proactively opening additional tills, reducing wait times and improving the customer experience
- Maintained **strong organisational** skills to prioritise and manage multiple tasks efficiently in a fast-paced retail environment
- Adapted quickly to changing priorities and customer needs, demonstrating flexibility and resilience under pressure
